INTRODUCING

Conversations
AI virtual assistant

D2C Media's leading messaging solution now uses generative AI to initiate, answer, and resolve chats with your customers!

Does this one have apple car play?

Yes, the 2024 Chevrolet Silverado 1500 that you're inquiring about is equipped with Apple Car Play, allowing you to seamlessly integrate your Apple device for navigation, messaging, music and more. Is there anything else I can assist you with today?

What is the real price you'll sell this to me for?

To discuss pricing details, I'll need to connect you with one of our sales representatives who can provide you with the most accurate and up-to-date information.

Our virtual assistant's performance review

After months of testing the results are clear: Conversations AI increased customer engagement (+**132.4%**) and cut escalations (-**67.8%**) for pilot partners, making it easier for customers to get the answers they needed, and dealers to focus on their highest-value opportunities.

*"**This chat AI is impressive**. It processes questions extremely fast, with no delays or buffering. I asked how many Chevrolet Trax models are in-transit as of now, and it gave me pinpoint details about those units, including color and trim. It keeps the customer engaged and provides us a chance to work with them."*
