PREMIUM SEO & SET UP

Currently included in all new website platforms

Our SEO audit and set up will ensure your site is fully optimized for search engines. We will optimize all your VDP, SRP and info pages and redirect all previous pages to your new optimized pages on your Fox Dealer site in order to preserve your rankings. In addition, we will setup your Google Analytics to measure key metrics to give you a picture of how your site is performing.

SEO ACCELERATOR

Get Your Website on the Fast Track

Our SEO Accelerator program is based on industry best practices to maintain and grow your rankings with monthly link building and optimized SEO content to help you rank for high volume competitive keywords in cities you serve.

i-VDP (Instant Vehicle Detail Page)

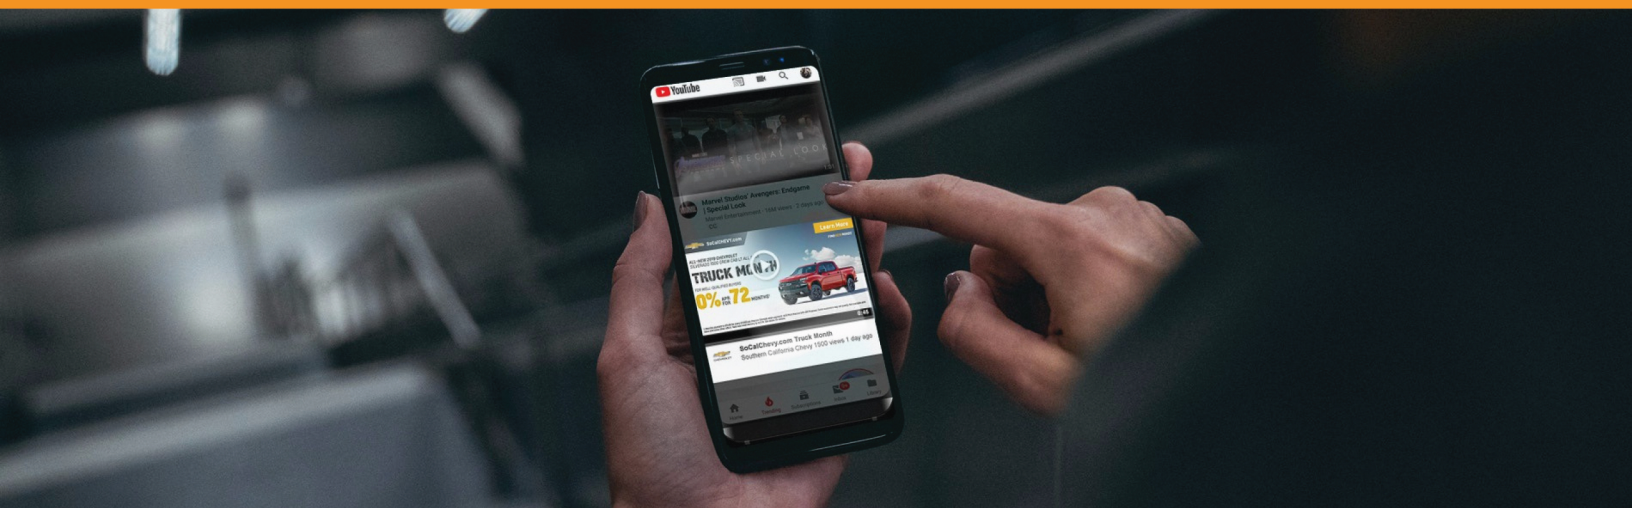

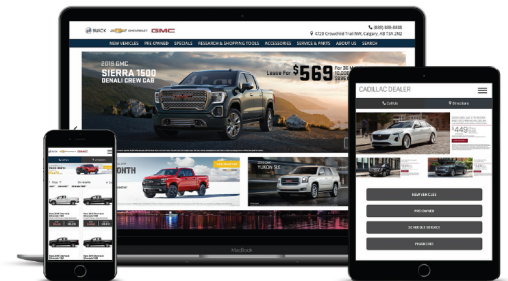

A Revolutionary new VDP

We've killed the outdated traditional Vehicle Detail Page and built a revolutionary i-VDP with Quick View Technology. Clicking on the SRP Page shows a "Quick View" of the car MUCH faster than loading a VDP page. With near instant load times, visitors can see the most cars possible per page. The more cars a visitor sees, the more likely they will submit a lead.
